Welcome to Terros Health!

Thank you for choosing Terros Health as your medical home! Our health care team members are dedicated to giving you and your family the best care.

Terros Health is a “patient-centered medical home.” This means that you have a team of health experts that work together to care for you as a whole person - mind, body, and spirit. If you want, family or friends can be part of your care team. Your care team may have a doctor, mental health expert, nurse, therapist, case manager, or peer support specialist working with you to meet your health needs. We can also help you with community assistance and to get appointments with a specialist, if you need it.

We want to provide you the best care, which may include reviewing your past medical records. Your care team uses evidence-based medicine; this means they use the most current trusted medical knowledge to help you decide what treatment will work best for you. We will help you plan for a healthy lifestyle. We want you to ask questions when you have them, and help you understand your health needs and how to take the best care of yourself.

Appointments/Cancellations:

Please come 30 minutes before your appointment time to check in and make sure your information is up to date and correct.

You can make an appointment by calling your local community health center. The number for your health center can be found on the left side of this letter or at our website www.terroshealth.org. Or if you prefer, we accept walk-ins.

Please let us know if you cannot make your appointment so that we can help you reschedule.

After-Hours Emergencies and Urgent Needs

Please call 911 or go to the hospital, if you have a life-threatening medical emergency. Terros Health has a provider on-call outside of clinic hours. If you have a need that can't wait until the next clinic day, please call 602-685-6000 to reach us.

We cannot refill medication outside of clinic hours.

For mental health crises, you may access after-hours services by calling the CRN Crisis Line at (602) 222-9444, (800) 631-1314 (Toll Free), or (602) 274-3360 (Hearing Impaired). The CRN Crisis Line is staffed 24 hours, 7 days a week.

Resources

We will provide you with resources following your initial and subsequent appointments. Patient education materials and self-management supports are available.

Terros Health provides free interpretation and translation services, including American Sign Language, for patients who speak languages other than English, and free aids and services to people with disabilities.

Community Information and Referral Services are also available to link individuals and families to vital community services throughout Arizona. Individuals may access these services by connecting with www.211.org or www.Auntbertha.org. We will be happy to print any resource information for you.

Specialty Referrals

If you need to see a specialist, such as a heart doctor (cardiologist), you can make an appointment with your Terros Health provider. Some specialty referrals may take up to 3 weeks or longer due to prior authorizations from your health insurance plan. Your Terros Health care team will help get you the care you need as soon as possible. If you already have a specialist of choice, please let us know.

¡Bienvenidos a Terros Health!

¡Gracias por elegir a Terros Health como su centro de salud! Nuestro equipo de profesionales de la salud se esmera por brindarle a usted y a su familia la mejor atención.

Terros Health es un centro de salud centrado en el paciente. Esto significa que cuenta con un equipo de expertos que trabajan en conjunto para atender a la persona entera –su mente, cuerpo y alma. Si usted lo deseara, sus amigos y su familia podrían formar parte de su equipo de salud. Providers of substance use services receiving Federal funds from the United States Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, including this organization, may not discriminate against you on the basis of religion, a religious belief, a refusal to hold a religious belief, or a refusal to actively participate in a religious practice.

If you object to the religious character of this organization, Federal law gives you the right to a referral to another provider of substance use services. The referral and your receipt of alternative services must occur within seven days after you request them, or earlier if your condition requires.
